

GRAVELY OIL SEAL & BEARING CROSS-REFERENCE

The information below is based on an undated cross-reference guide published by Gravelly, with additions contributed by the Gravelly owner community. The original Gravelly document was in poor condition and poorly formatted, so rather than simply scan the original I have recreated it in a more usable format. Every effort has been made to ensure accuracy, but I guarantee nothing. Use at your own risk.

The Gravelly part numbers shown are the revised numbers used starting about 1970. Sorry, I do not have a cross-reference to the old-style Gravelly part numbers.

Please e-mail additions, corrections and comments to me at feold3@mac.com.

Chip Old

Oil Seals

Gravelly P/N	Manufacturer	Manufacturer P/N	Notes
9206	Garlock	63x427	
9667	Garlock	94x6120
